AL Consulting (Ainsworth & Lloyd Inc.) is a Washington, DC-based operations and technology consulting firm founded in 2009. We help public- and private-sector organizations modernize operations, improve service delivery, and implement technology that solves consequential business problems. Our integrated approach connects applied AI and software engineering with Lean process improvement, Agile delivery, and organizational change—from discovery and architecture through implementation, measurement, and handoff.

DIFFERENTIATORS

- Integrated expertise: Change management, technology, and organizational effectiveness
- Practical AI implementation: Solutions that address real operational challenges
- End-to-end delivery: Assessment and strategy through development and sustainment
- Measurable outcomes: Productivity, service quality, and mission performance
- Human-centered transformation
- Sustainable solutions: Knowledge transfer, operational ownership, and maintainability

CORE COMPETENCIES

- Artificial Intelligence & Digital Transformation: Custom AI agents and intelligent automation, AI-powered quality assurance and software testing, and Integration
- Software Engineering & Technology Solutions: Custom applications and enterprise software development, web and mobile application development
- Operational Excellence & Management Consulting: Lean assessments, leader development, performance management, and workforce optimization
- Program & Organizational Transformation: Lean Daily Management, and Agile Project Management
